# Pronto

## Pronto – A new generation has arrived.

■ **In recent years, the Plaxton Pronto has led the way**, setting new standards for comfort, style, practicality and engineering among accessible coaches. Now, the leader has taken another step forward with a new generation of Pronto. With all of the features which have made Pronto such a favourite, the new Pronto takes the concept of small accessible coaches into the next generation.

■ **Consider the specification.** For a start, the Pronto has a welded stainless-steel frame. That means high levels of resistance to corrosion for a lengthy and trouble-free operating life. Having a coachbuilt body means that with an overall width

three evenly spaced steps with handrails carefully located to provide secure handholds for passengers as they board or alight. If an even lower entrance is required, a retractable entrance step is available as an option.

■ **And of course none of this is at the expense of practicality.** With Pronto, we listened to your views and then built a vehicle which met your needs. The interior has a durable and easy care finish to the interior surfaces with the option of soft trim in specified areas if something a little more luxurious is required. The anti-slip coated flooring is available in a range of colours to suit your requirements.

### **We're with you all the way.**

*When you invest in a new Plaxton coach, you're also investing in top-quality aftersales service.*

*Plaxton Customer Support is dedicated to keeping your vehicles where they belong – on the road, earning money.*

*The Plaxton Customer Support operation is staffed by people who understand the coach business. They realise the importance of a prompt response, whether it's ensuring that a vital part is delivered promptly to your workshop, or attending to a vehicle breakdown.*

*Roadside support is provided 24/7 by a network of UK and European service agents, managed and monitored from a dedicated control centre.*

*We also offer an unrivalled glass replacement service with teams covering the UK.*

*For parts and service Plaxton Customer Support provides the back-up you need, when you need it. Fast.*

of 2.2m you get a spacious interior and the latest version is longer giving you even more cabin space. That not only makes life easier for manoeuvring wheelchairs but gives passengers more room.

The floor is flat, with no wheelarch intrusion. Tracking on the floor makes it easy to release and remove seats when a wheelchair passenger is being carried. It also provides secure wheelchair anchorage points. These are tested to M2 standard.

There's ducted perimeter heating at floor level to keep passengers warm. And there's a variety of options to keep them cool.

■ **Now consider the style.** Pronto has all the looks which have made the Plaxton coach family the market leader in the UK. With deep, tinted side windows, direct-glazed to the frame to give a crisp, modern, appearance, and sleek exterior lines, the Pronto is a real head-turner. A completely new entrance door not only looks good, but provides effective sealing from the elements and leads into

For passengers in wheelchairs, the wide opening double rear doors allow maximum space for access to the extensive platform of the underfloor or internal lifts.

Although designed with the needs of demand responsive mobility transport in mind, the 18-seat Pronto can be equipped for regular bus operation with destination displays and facilities for fare collection equipment.

■ **Reliability is key to any transport operation**, so we've listened to our customers and selected the chassis they'd choose. Initially available on the Mercedes Benz Sprinter, Pronto will be available on other leading chassis in the not too distant future.

**Pronto – the little coach with big ideas.**
